Read the passage and answer the following

TERRORISM is the systematic use of violence and terror against the public or the government officials to attain a political motive. Pakistan has alleged that the Indian forces are indulged in the crimes against the people of Kashmir to gain the sympathy of the human rights. But all this has been proved wrong as the terrorist are indulged in these activities. Pakistan is sending the terrorists in Kashmir to create the terror by loot and killings. The main aim of Pakistan is to destabilize India. Pakistan dislikes the peace in Kashmir and thus the terrorist groups are indulged in the killings to create the terror. The fresh examples are the attack on the state assembly building in Srinagar and various kidnappings of the Indians as well the foreigners. The fear created in Kashmir is the main cause of the decreased economic progress in the state. Strong actions have been taken against the terrorist groups such as AL QAEDA, HIZBUL MUJAHIDEEN etc.

GLOBALIZATION means the coming closer of the different countries of the world in the social, cultural and technological fields, specially the economic field. The international organizations such as THE INTERNATIONAL MONETARY FUND, ECONOMIC COOPERATION AND DEVELOPMENT (OECD), and WORLD TRADE ORGANIZATION (WTO) support the idea of globalization by the growth of the countries by the growth in the trade. The prosperity of the world is mainly due to the exchange between the nations. The globalization according to them makes possible to increase the standard of the working class. The trade with the poorest countries has shown the highest rate of growth in the income per head and the decline in the poverty. By lowering the tariff barriers, few countries have gained in the employment and the income because of the shifting of the labour. By trading among the different countries the standard of living has increased. The globalization has increased the GDP and employment and the standard of living in some countries like Australia.

There is the rising inequality between the rich and the poor. The developed countries have invested in the poorer countries and have gain higher profits. The free market has done nothing in the distribution of wealth. The globalization has effected the environment and the depletion of the natural resources. The developed countries have established the polluting industries in the poor countries and have destroyed the forest wealth. The policies of the WTO are in the favors of the developed nations.
